THE PRODUCER OF THE PERCUSSION ENSEMBLE

Pearl

Professional Pedal Timpani

"PRO-58 SERIES"

KETTLE

A free floating, truly suspended copper kettle offers greater resonance, projection and duration of tone at all dynamic levels. The kettle is polished, buffed and clear lacquered.

PRECISION PEDAL MECHANISM

Provides smooth and consistent foot action throughout the entire range. The unique clutch mechanism locks pedal at any desired tone.

Many basic materials selected and developed for percussion instruments with the various ethnic background and through historic changes constitute an indispensable important position in today's music. Such basic materials require much human effort and craftsmanship to become as a perfect musical instrument. Pearl challenges this creative mission as a world's top percussion instrument manufacturer.
