WHAT'S INSIDE

Discover the elements of superior drum tone.

THE DIFFERENCE - The Ultimate in Strength, Resonance, and Tone.

Using the world's first high temperature hydraulic curing system, the SST method was developed to craft a multi-ply, bonded drum shell with single-ply resonance and strength.

All shells are formed in a bonded combination of cross-laminated 2-ply veneer panels; precision milled with overlapping scarf joint seams and cured with our exclusive AcoustiGlue at 1000 PSI of hydraulic pressure.

PRESIDENT SERIES DELUXE

A Modern Revival of The Darkly Unique Lauan Sound

BEARING EDGE
Rounded 45° - Increased head-to-shell contact boosts mids and highs and helps control overtone spread.

HARDWARE
2.3mm SuperHoop II Hoops - Made to maintain tuning integrity in heavy play while delivering maximum shell resonance.

BSL LUGS
Cast in 1969 as "C043" for Pearl's professional outfits, it has since been dubbed "The Battleship Lug" by collectors for its angular profile. The new BSL100 features the same striking look and self-aligning design with a more robust casting for better tuning integrity.

#768 Desert Ripple
PSD943XP/C

Drawing from the very origins of Pearl's drum manufacturing history, President Deluxe Series revives the warm subtlety of our original tone wood for a traditionally full, controlled playing experience.

#450 Silver Sparkle #767 Ocean Ripple #768 Desert Ripple

DELIVERING A DISTINCTLY CLASSIC PLAYER'S GROOVE.

A modern take on a familiar favorite, President Series Deluxe drums revive our original 6-ply Lauan shell, the source of the original "MIJ" (Made in Japan) sound. This darker toned medium/hardwood was the basis of thousands of shells made by Mitsuo Yanagisawa in Pearl's Chiba, Japan-based drum factory starting in 1961.

Presenting prime vintage style without the shortcomings of yesterday's fittings, President Series Deluxe features a recasting of our classic "Battleship" lug and adjustable tone mufflers on each drum. The elegant identity of Pearl's original script badge and classic bass drum logo augment the swirling flash of a choice of our Ripple covered finishes.

Each President Series Deluxe drum kit comes standard with Remo CS "Black Dot" UT heads, classic felt bass drum muffling strip, shell-mounted cymbal holder, and adjustable "Gullwing" style bass drum spurs.

MUSIC CITY CUSTOM

Solid Shell Snare Drums
Handcrafted in the USA

DISCOVER THE SNARE DRUM YOU'VE BEEN WAITING FOR.

A singular tonal expression that elevates your approach to playing - and feeling - the drums.

Pearl's Music City Custom Solid Shell Snare Drums are uniquely refined, American made percussion instruments crafted with time honored precision. Using an old world technique derived from the shipbuilding trade, each solid shell is meticulously hand-formed from a steam treated plank of premium North American lumber.

Each Music City Custom Solid Shell Snare is then drilled with CNC precision before being hand finished and assembled by our Custom Shop team in Nashville, TN.

The natural beauty of each shell is further refined with a hand-rubbed oil finish available in a choice of standard Nashville Natural or with one of our exceptional, exotic inlay options. Pearl's Music City Custom Solid Shell Snare Drums are truly instruments elevated above all others.

Our handcrafted Solid Shell Snare Drums all feature Solid Maple Reinforcement Rings bonded to both top and bottom of the shell interior.

SOLID SHELL WOOD OPTIONS

SOLID MAPLE

The standard for premium, tonally centered midrange punch and restrained overtone.

SOLID CHERRY

Slightly brighter in tone than Maple with cutting projection. Best suited for a higher velocity stroke.

SOLID WALNUT

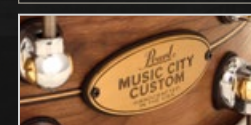

A fat growl with a naturally darker tone, the sound of Walnut is a perfect complement to its luxurious grain.

SOLID ASH

Brighter, louder, and with the crack of a homerun hit, the tonal quality of Ash is punchy with extended sustain.

FREE FLOATING

The Ultimate Purity Of Sound

TASK-SPECIFIC INNOVATION Pearl's unique Free Floating Snare chassis removes all hardware from the shell to greatly improve resonance and projection.

By combining the tonal character of each shell type with its ideally matched depth, each Free Floating snare drum is engineered to fit a specific task by model and gives you a unique voice for any sonic situation.

CLICK-LOCK THROW-OFF SYSTEM Engineered with Polymer bearings for precise and smooth action. Unique nylon grip mechanism locks the snares into place.

FTAL1480 Deep, rich snare power with short, even sustain decay.

FTMH1480 Ultimate in throaty, deep snare growl. Shortened decay.

FTPB1465 Lower overtone body, preserves crisp top-end snare snap.

FTMMH1465 Full, rounded bottom frequencies. Extra midrange body.

FTBR1450 Full-spectrum, both bright in punch and warm in tone.

FTMM1450 Punchy and smooth. A perfect "go-to" snare.

FTSS1435 1mm shell for bright, open attack with ringy overtone.

SENSITONE HERITAGE ALLOY *Legendary Snare Tone from Studio to Stage*

The Sensitone sound has always been drawn from an amalgamation of The Heritage Alloys (Aluminum, Black-over-Brass, and Steel) for the necessary, immediate tones of yesterday's chart toppers with an undeniably modern sensibility.

Sensitone Heritage Alloy snare models employ these three original metal shell types to deliver essential tone and power with the right gig-ready touches.

MM1465S/C

INTRODUCING THE WORLD'S FIRST "SMART" SNARE DRUM.

MATT MCGUIRE
The Chainsmokers

"Any snare drum I play has to cut through and connect. Not just a sonic connection when it's played, but actual, exclusive interaction between players. This is my Snare Drum. It's YOUR snare drum, and I can't wait for you to experience it."

VENTS 30x

Made to bring the arena-filling sound to any drummer who plays it, the Matt McGuire Signature Snare features a 1mm Rolled Steel shell with 30 reinforced vents around the bottom edge. This unique design channels the force of each hit through its 6.5" deep chamber and outward in every direction like a shock wave. Its powder coated Matte Black finish further tempers its uniquely bright tone and Pearl's reliably durable SuperHoop II 2.3mm Hoops and CL Bridge Lugs add weight for increased projection.

GLIDE-LOCK THROW-OFF SYSTEM Pearl's SR1000 Glide-Lock Strainer's locking throw-off lever and tension knob assures worry free, slip-free performance from all Hybrid Exotic Snare Drums. (U.S. Patent #7220905, #7301087, #7365256.)

SPIN-TIGHT™ TENSION RODS To maintain tuning tension across the batter head, all Hybrid Exotic snare drums feature Pearl's Spin-Tight tension rods. This elegantly simple innovation creates a tension rod-within-a-tension rod, that allows the rod to expand and lock into place within the swivel nut. Utilizing a special drum key, tunings can be controlled under high-impact play like never before.

DUOLUXE

The World's First Inlaid Brass Snare Drum

The Pearl Duoluxe is a modern take on our legendary, "interplanetary" snare drum sound. Featuring the chrome-over-brass shell alloy of our classic Jupiter snare, the rigidity of our trademark dual inverted shell beads is augmented with inlaid finish bands of Nicotine White Marine Pearl. This gives the shell a singular look and adds tonal control to its unbridled sound.

Each DuoLuxe snare is fitted with retro-perfect "Battleship" Lugs, smooth SR017 Strainer, and solid 2.3mm SuperHoop II triple-flanged hoops to balance out the package. Experience the Jupiter sound with a fresh, dynamic look for a totally graceful drumming presence.

STAVECRAFT

Featuring The Exclusive Dado-Loc Joint

A startling addition to any pro drummer's soundscape, each StaveCraft shell starts from two layers of meticulously beveled solid Makha or ThaiOak staves. Dado-Loc, an old world principal exclusive to these snares, inserts a segment of corresponding wood into the center Dado channel formed by each stave and increases total shell strength by 50%. This solid fusion of hardwoods is lathed to a perfectly round 25mm thickness for unparalleled volume and power.

e/MERGE

**NOT JUST A NEW STANDARD.
A NEW SOUND. A NEW FEEL. AND, A
COMPLETELY NEW E-DRUMMING EXPERIENCE.**

e/MERGE is about change, and change in the e-drum market has been way overdue. When we looked closely at every aspect of the current e-drumming experience with KORG, together we knew we could make a dramatic difference. And that difference begins with the all new e/MERGE module. Simple yet elegant in design, the e/MERGE MDL1 module features a full library of high definition, natural, organic and minimally processed acoustic Pearl drums. We then added the very best electronic, world, orchestral and specialty percussion sounds from KORG's vast library of pristine quality samples. But, the module is only part of the change.

There are three key elements that separate e/MERGE from anything that has come before. The MDL1 e/MERGE Module, KORG's amazing WAVE TRIGGER TECHNOLOGY and Pearl's acoustic-like PUREtouch electronic pads and cymbals combine to create an exceptional e-drumming experience.

MDL1

e/MERGE MDL1 MODULE Simple, straight forward yet extremely powerful, the MDL1 module offers, a pair of powerful multicore processors, a full library of acoustic Pearl drums recorded in one of the world's most renowned studios, pristine samples from KORG's library and the variety of routing options every e-drummer needs.

WAVE TRIGGER TECHNOLOGY

This ultra-fast and highly sensitive technology partially based upon KORG's groundbreaking Wave Drum allows even your stick choice to make a discernible difference in the sound of your drum. Wave Trigger Technology speed adds a realism to the playing experience never before available to the e-drummer.

PUREtouch

PUREtouch PADS & CYMBALS

Perfectly sized pads designed to replicate the ultimate acoustic-like response. PUREtouch features layer upon layer of specially designed materials each selected for a specific quality that together create an e-experience never before possible. (PUREtouch Pads U.S. Patent #10475424) (PUREtouch Hi-Hats U.S. Patents #10475430, 10482855)

THE MOST AMAZING DRUM MODULE THE WORLD HAS EVER KNOWN.

SERIOUSLY, IT'S THAT GOOD.

Superior sound, accurate triggering and connectivity are the most important features of a drum module. Pearl Drums and Steven Slate have joined forces to create "Mimic Pro" - the world's most advanced percussion sound source for studio and live performance applications.

At the heart of this ground breaking unit is the new Steven Slate 5 drum library that features multi-channel drum samples recorded in world class studios. Each instrument supports adjustment of Attack, Sustain, Release, Tune, Pan and volume. Instead of substituting digital effects to create ambience, these instruments use the actual ambient recordings with separate adjustment of close, overhead and room mics.

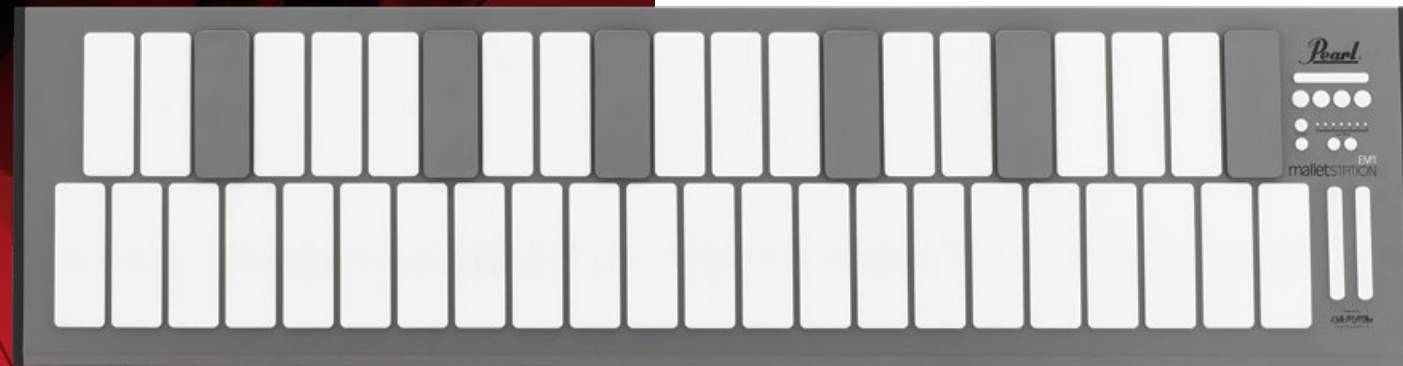

Mimic Pro is the first drum module to implement a 7" IPS touch screen and the first to offer 2 mixers for independent headphone and front house outputs. Now that the drummer is responsible for triggering loops and other sounds for a performance, Mimic Pro can import audio files to trigger from your pads.

Storage is no longer a problem with Mimic's 120GB Solid State Drive and lightning fast loading time. Speaking of connectivity, Mimic Pro is compatible with Pearl TruTrac pads and a host of pads from other manufacturers. Top that off with sixteen audio outs, 16 Trigger inputs, independent SD card Slot, USB and Midi In & Out, Stereo Aux input and you would be hard pressed to find a better option for today's musician.

Pearl once again redefines the electronic percussion experience by introducing the revolutionary EM1 malletSTATION adjustable range electronic mallet controller.

The EM1 malletSTATION is a 3.0 octave adjustable range electronic mallet controller designed for all levels of player, from the beginning student through the gigging professional. The adjustable range function allows you to set the fundamental diatonic note of the instrument to what you need—low D xylophone? No problem! Powered exclusively by USB Bus Power, the malletSTATION is designed to be used with Mac, PC, iPad, iPhone, and Android devices, making it the first truly portable mallet percussion controller on the market.

Designed in collaboration with Keith McMillen Instruments, malletSTATION's tech-forward design features KMI's Smart Fabric Sensor technology allowing the silicone bar material to have an extremely sensitive, natural response, including mallet dampening and aftertouch control, and all can be easily tailored to your individual playing style. The EM1 features a master control section, with 3 programmable faders, 4 programmable buttons, and the fixed function low note and octave shift buttons. In addition, three assignable pedal inputs allow for flexibility in performance such as sustain, expression, or any MIDI parameter of your choice. These controls are fully programmable through a software editor so changing your configuration is as easy as clicking a mouse.

This is the controller that will grow with you throughout your playing career—from music apps on your phone or tablet, to professional digital audio workstations and sound libraries—your sounds and even the instruments you play are only limited by the software you run.

DEMON PEDALS

DEMON DRIVE UNLEASH THE DEMON

Demon Drive's lightning fast power and silky smooth finesse make it the choice of the drumming world's most prolific players. POWERSHIFTER FUNCTION By moving the foot board forward or back, our revolutionary PowerShifter function provides 3 positions to fine tune the power and feel of the pedal. Instantly change the drive angle leverage to create a light, regular, or strong feel. U.S. Patent #5574237

NiNJA BEARINGS Developed by skateboarding engineers for the ultimate in fast, quiet performance, NiNJA Bearings incorporate state of the art micropolished steel balls for incredibly fast and smooth performance.

INDEPENDENT TRACTION GRIPS Eliminator Redline's redesigned pedalboard features Pearl's exclusive reversible Traction Plate insert, allowing individual traction grip configuration to suit your exact playing requirements.

CLICK-LOCK SPRING ADJUSTMENT w/ NEW Rotor Tension Cradle. Secures spring tension in high impact play. The counter spring adjustment's rolling cradle allows the spring to pivot with each stroke for less resistance. U.S. Patent #7754953

ZERO PLAY HINGE Our proprietary stainless steel hinge provides maximum freedom of motion for blazing speed and prevents play between the footboard and heel. U.S. Patent #7179978

ROLLER HOOP CLAMP w/ Side Mount Adjustment. Quickly adapts to a wide range of hoop thicknesses for the smoothest, most secure grip possible. Easy side access to the hoop clamp makes set up and tear down a breeze.

THE CONTROL CORE QUADBEATER Provides four beater surfaces (two hard plastic, two felt) with the added feel of the vibration-free Control Core elastomer center. U.S. Patent #7626108

UNI-LOCK BEATER ANGLE CAM Grips the axle a full 360 degrees, allowing infinite beater angle adjustments. Floating Spring Pendulum design is perfectly centered on the clamp for full bearing movement and maximum smoothness.

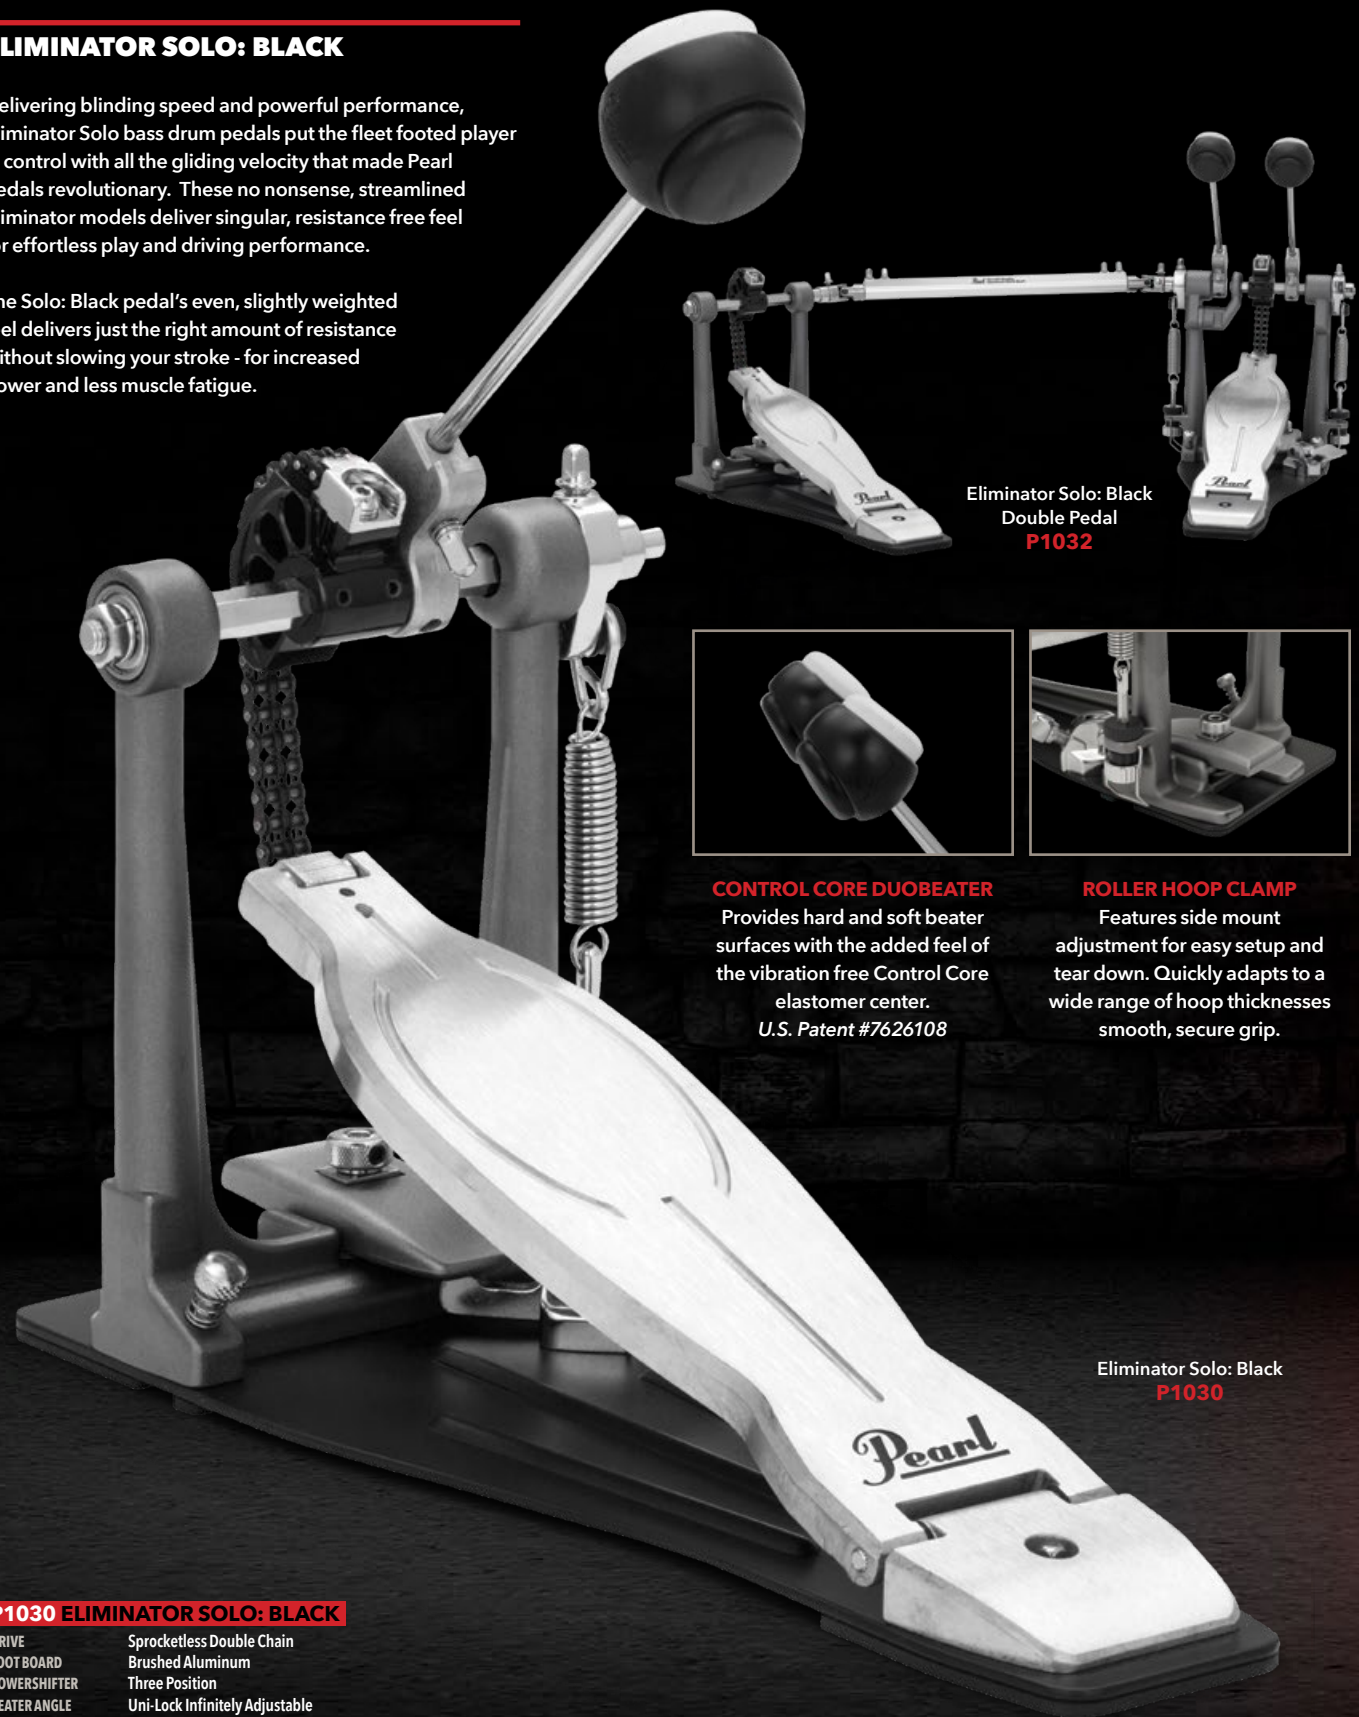

ELIMINATOR SOLO

Singular Feel, Eliminator Speed, Priced to Perform. Fly Solo and Set Your Feet Free!

ELIMINATOR SOLO: BLACK

Delivering blinding speed and powerful performance, Eliminator Solo bass drum pedals put the fleet footed player in control with all the gliding velocity that made Pearl pedals revolutionary. These no nonsense, streamlined Eliminator models deliver singular, resistance free feel for effortless play and driving performance.

The Solo: Black pedal's even, slightly weighted feel delivers just the right amount of resistance without slowing your stroke - for increased power and less muscle fatigue.

SIGNATURE SERIES

The Pros Play Pearl!

BOBBY ALLENDE FIBERGLASS CONGAS AND BONGOS

Bobby Allende is a mainstay in the New York Latin Music Scene and he demands the best from his drums, that's why he plays Pearl. His Signature drums are fiberglass with no seams to inhibit vibration which allow the drums to resonate freely for the full, rich sound that Bobby is famous for. The congas are 28 inches tall, fitting the traditional seated player perfectly while adding extra width to the base for added projection and stability. A matching set of bongos is also available.

JESUS DIAZ OAK CONGAS AND BONGOS

Cuban born Jesus Diaz is one of the most in demand percussionists and vocalists on the scene today. His active schedule provided the feature set for his signature series of congas and bongos. Designed for the seated player the Thai Oak drums measure 30" tall and from the Quinto to Tumba feature added girth to the belly of the drum. Seated conga players typically have to tilt the drum to achieve the desired projection, but the Jesus Diaz drums feature a 4" port on the front of the drum that is strategically positioned to deliver the maximum base frequency while the drum remains flat on the floor.

The drums also feature a newly designed Quick Release lug that is slotted to allow removal of the tension rod without fully removing the nut. Player comfort was also an important ingredient in the design of the hoop. A new ergonomically friendly design reduces the impact to your hands while an internal ring centers the natural buffalo skin heads for accurate placement.

DJEM-BASS

The **PJBS350** Djem-Bass Attachment allows you to convert any Pearl 14" djembe into a sub-sonic bass drum. To reduce the attack and add greater "lows," we have included a cloth cap that stretches around the head. For smoother low-end with a slightly reduced attack, slip the included neoprene disc inside, allowing for two distinct sound options. A pedal (not included) attaches via an I.S.S. clamp to the djembe's stand mounting plate. Includes two legs with mounting hardware, pedal bracket, head cover and neoprene muffler.

FOLKLORIC

FOLKLORIC ELITE CONGAS

Pearl's Folkloric line of congas feature a traditional look with modern innovation that only Pearl can deliver. Each 28" tall Oak drum is designed for the "seated" player, but includes stand mounts for players who prefer to stand. Thicker South American-style natural skin heads make the drums warm-sounding, but a fiberglass gel coating on the interior seals the shell and add the projection and volume desired by today's players. Four Polished Steel Reinforcing Bands are inset on the shell for a smooth touch, and the traditional hoops complete these stunning Cuban instruments.

BATAS

Bata drums originated in Nigeria over 500 years ago and were primarily used for religious purposes. The drums were introduced into Cuba by slaves in the 1820's. Pearl Batas are modeled after an ancient Cuban design and feature naturally finished 100% Thai Oak shells for outstanding and authentic tone. Polished steel traditional rims offer excellent tuning integrity and ease of tuning. These prized ceremonial drums have an hourglass shape and produce a great, warm tone similar to a bongo-like sound on the high drum and a djembe-like tone on the large drum.

HANDPANS

A Cosmic Blend of Sound

MELODIC HANDPAN

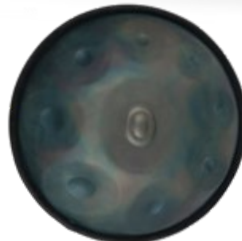

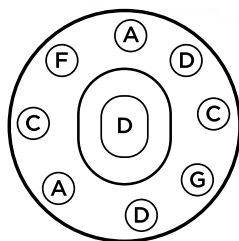

Handpans are musical instruments that are a subset of the steelpan. The beautiful tonal characteristics will remind you of steel drums, but handpans are only played by hand, with no sticks or mallets, so the sound has reduced attack but is much more mellow.

The shape of Pearl's 22" Awakening Series Melodic and Euphonic handpans feature a center tone field surrounded by eight tone fields. Each tone field has a fundamental note, an octave, and an overtone, so each field has three notes. The hand-crafted steel construction of the instrument is designed so each tone field holds its tuning.

The Melodic handpan features a patina finish and is meticulously tuned to the D Minor scale, and responds to your finger strikes with excellent sonority.

CONCERT PERCUSSION

Engineered for the Professional Percussionist

Pearl is proud to offer Concert Percussion instruments that are attractively priced for school ensembles, yet engineered with the professional percussionist in mind. The symphonic tambourine is a perfect example. Its 17 pairs of specially aged, stamped brass jingles provide a dry, yet bright tone that brings added color to any musical situation. Its 10" headed wood frame allows the player to effortlessly

perform all tambourine techniques, and the tambourine's plush carrying case is included. The rattler is another vital component to any concert percussionists' equipment, and Pearl's is built with an extended handle for a comfortable grip and ease of playing. Holders for the rattler and castanets are also available.

HAND PERCUSSION

A World of Hand Percussion

BLOCKS, BELLS, SHAKERS and more. Choose from a complete selection of hand percussion instruments to add color and impact to your music.

GUIROS

Natural Gourd Guiro
PNG20

Two scraping surfaces: thin grooves on one side for a lighter sound and thicker cut channels on the other side for a beefier sound. The interior is coated with fiberglass gel coat to add projection and volume.

Metal Guiro
PMG20

Perfect for Merengue rhythms, or just a different metallic sound texture, Pearl's Metal Guiro will become an essential ingredient in your "toy" bag. Scraper included.

Fiberglass Guiro
PFG20

Pearl's Fiber Guiro is light-weight and provides optimal projection due to its fiberglass construction. With the included striker and two different playing surfaces you have a world of sonic possibilities in your hand.

Guiro Holder
PGH20

This innovative design will hold virtually any size guiro secure for one handed playing. Easily mountable off the lug of your conga or any 3/8" post, Pearl's Guiro Holder uses a track system to lock the guiro in place. Included is a 3/8" "Z" rod so you can also mount your favorite accessory as well.

Beaded Maracas
PFM20

The Beaded Maracas feature Shekere-style beads which offer an excellent sound with greater control, and foam handles for enhanced comfort.

Maracabasa
PFM50

The Maracabasa is two great instruments in one, combining the functionality of a maraca and a cabasa in one handheld instrument. Featuring a ribbed fiberglass body wrapped in shekere-style beads.

Basket Ganza 9" X 4"
PGA20

The Pearl basket ganza is a 9"x4" woven tube containing wooden sticks instead of conventional shot. The wood sticks produce an airy percussion sound.

Shakelets
PWR40

This innovative percussion item feature exclusive "Ganzinellas", Brazilian-style plantinellas combined with ganza shakers that are worn on the wrists to produce a shaker sound when playing.

Spirit Chimes w/ Holder and Mallet

Hi-Hat Jingle Ring
PJH10SH

The Hi-Hat Jingle Ring has 20 sets of Stainless Steel tambourine style jingles that will accentuate your Hi-Hat sound with every opening and closing of your cymbals.

Gatling Cabasa
CBS100

Simply grab the precision handle and fire away to play any pattern you wish, or keep spinning it for an infinite "sizzle" that is not possible with standard Cabasas.

ASH TONE BLOCKS

Tang-Tang
PTG20

A high and low pair of unique shakers that incorporate a Caxixi-Style Plate and Wooden "Clacker."

(High) **PAB20** (Medium) **PAB50** (Low) **PAB100**

Pearl's Ash Tone Blocks are constructed using Ashwood because it is extremely hard and durable. The Ash Tone Blocks are pitched in "thirds" and each block includes a mounting bracket that accepts a 3/8" post.

CLAVE BLOCKS

(High) **PBL10** (Medium) **PBL20** (Low) **PBL30**

Pearl's clave blocks are injection molded so they're virtually indestructible, and the solid color will never chip, fade, or peel. Our exclusive CDV (Chamber Density Variation) Technology process allows all three clave blocks to be the same dimensions but still differ in pitch.

Anarchy Block
PBL100

Produces a low piercing pitch that will cut through even the heaviest metal rhythm section.

21" Field Percussion Shaker
PGA60FP

Hexagonal body and internal chamber for a truly massive sound.

Wood Hex Ganzas
PGA30W (Short) PGA32W (Long)

The wood Hex Ganzas are made from Shorea wood and maintain the same strong projection as their aluminum brothers, but deliver a warmer less metallic tone.

Hex Ganzas
PGA30 (Short) PGA32 (Long)

The Pearl aluminum Hex Ganzas give more sound control than round shakers and produce a lush shake sound due to their hexagonal shape.

Triple Shaker
PGA40

6" long, rectangular aluminum shaker provides three unique sounds: shake, click, and swish.

Groove Shaker
PGA50SF

Can be played as a traditional shaker or while holding a drumstick.

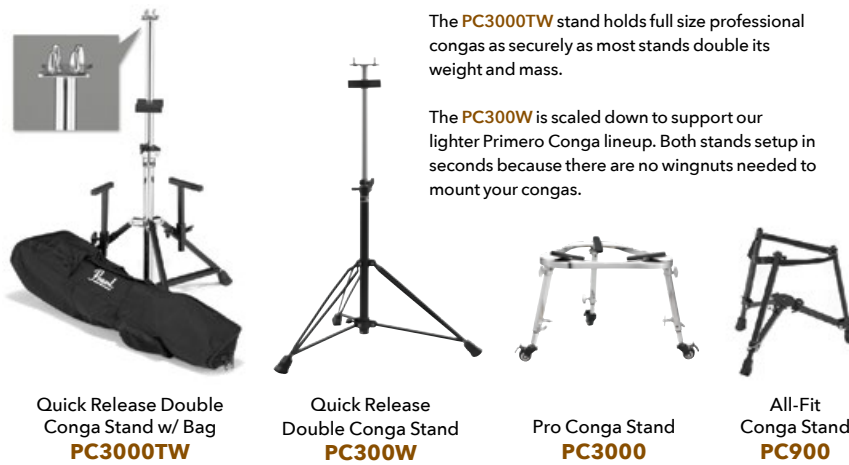

Egg Carton
PEC1

Three egg shakers in a clear tube that can be played separately or as a complete unit.

OFF

THE SR017 STRAINER Simple and effective, the SR017 is a Pearl standard for effortless snare switching and sensitivity control. Its smooth lever action and fine-tuning knob let you dial in the right amount of snare wire saturation to suit your personal sound.

ULTRA-SOUND SNARES

Pearl's Ultra-Sound snares feature patented Graduated Tension wires for extended dynamic range from ultra soft to ultra loud. Ultra-thin, low mass end plates assure ultra quick response. The end plates feature three mounting options: tunnels or holes for cord mounting and slots for straps. U.S. Patent #7202405
